

Before You Apply for a Building Permit

Incomplete applications will not be accepted. Review the requirements carefully.

Step 1: Contact Planning & Development Services with accurate details of the proposed development (scope of work and location). Staff will determine next steps for you **based on the information you provide**.

Step 2: The following **MUST BE COMPLETED** prior to building permit application: **all planning applications and approvals (development permits, variances, floodplain relaxations) and ALC approvals including Soils Notice of Intent for secondary dwellings in the ALR**. Floodplain guidelines are applicable within 100m of the Strait of Georgia. Please contact Planning staff for requirements.

Step 3: Once the above approvals are complete, gather all required building permit application documents together and request a secure link to submit your building permit package (preferred). Submissions can also be submitted over the counter.

Step 4: Staff will endeavour to review your submission within 5 business days. If it is determined that all required items have been submitted, you will be notified that the building permit application is complete for the purpose of review and the application fee payment will be requested. If your application is not considered complete, you will be notified of what items are still required. Your application will **not** advance until all requirements are met. Avoid delays by providing accurate and complete details and supporting documents.

Step 5: Once the application is considered complete for the purpose of review and the processing fees paid, the application will be placed in queue for review. Processing times are based on the current volume of applications, and the completeness of the information you provide.

When is a building permit required?

CVRD Building Permit Bylaw No. 681 states that, unless the work is exempted under section 4(3) of the bylaw, a building permit is required for:

- a structure greater in area than 10 m² (approximately 107 ft²)
- decks (attached or detached) that are greater than 60 cm to the deck surface and/or covered by a roof
- constructing, repairing or altering a building or structure
- constructing, extending, altering or repairing a plumbing system or fire sprinkler system
- demolishing a building or structure
- construction of a new masonry fireplace or chimney and/or the installation of an unused solid fuel-burning appliance, factory-built chimney or fireplace and equipment unless the works are encompassed by a valid building permit
- placement of a mobile home on a property
- constructing a retaining wall 1.5 metres or greater in height
- placement of a moved-on structure on a property
- constructing a shoreline protection device

• Building permits that require a covenant to be registered on title may take additional time due to legal processing considerations.

• To submit your application package digitally, please email building@comoxvalleyrd.ca with the property address and request a secure link.

Permit application processing fees are payable at time of application and are calculated as follows:

Up to \$50,000 value: \$125 \$50,000 to \$200,000 value: \$275 \$200,000 to \$500,000 value: \$525 Over \$500,000 value: \$1000

The building permit fee is payable at time of permit issuance. The minimum permit fee is \$125

Permit fees are calculated as follows: \$75 plus (the appraised value x 1 %) less application fee

Application Documents Required for Submission

Items required at time of building permit application:

Please review and sign the Acknowledgement of Responsibility and Undertakings on page 4 of this form.

Acknowledgement of Responsibility and Undertakings

Note: In this form the words in *italics* have the same meaning as in the British Columbia Building Code.

The undersigned hereby acknowledges that:

- a) Neither the issuance of a permit under the building bylaw, the review and acceptance of the design, drawings, plans or specifications, nor inspections made by or on behalf of the regional district, shall constitute a representation or warranty that the building code or the building bylaw have been complied with or the *building* or *structure* meets any standard of materials or workmanship, and no person shall rely on any of those acts as establishing compliance with the building code, the building bylaw or other applicable enactments respecting safety or any standard of construction.
- b) The owner (and where the owner is acting through a representative, the representative) has the full and sole responsibility to carry out the work in respect of which the permit was issued in full compliance with the building code, the building bylaw, and or other applicable enactments respecting safety.
- c) The regional district will rely solely on *field reviews* undertaken by the *registered professionals* and the letters of assurance submitted pursuant to part 10 of the building bylaw as assurance that the construction substantially conforms to the design and that the construction substantially complies with the building code, the building bylaw, and other applicable enactments respecting safety in circumstances where letters of assurance have been required.
- d) I understand that I should seek independent legal advice in respect of the responsibilities I am assuming upon the granting of a permit by the regional district and in respect of the execution of this acknowledgement.

I acknowledge that if I am granted this permit pursuant to this application that I am responsible for compliance with the current edition of the BC Building Code, this bylaw and any other applicable enactment, code, regulation or standard relating to the work in respect of which the permit is issued, whether or not the said work is undertaken by me or by those whom I retain or employ to provide design and/or construction services.

I acknowledge that neither the issuance of a permit under this bylaw, the acceptance nor review of plans, specifications, drawings or supporting documents, nor inspections made by or on behalf of the Regional District constitute a representation, warranty, assurance or statement that the current edition of the BC Building Code, the Building Bylaw of the Comox Valley Regional District or any other applicable enactment, code, regulation or standard has been complied with.

Where the Regional District requires that Letters of Assurance be provided by a Registered Professional pursuant to the Comox Valley Regional District Building Bylaw and Section 290 of the Municipal Act I confirm that I have been advised in writing by the Regional District that it relied exclusively on the letter of "Assurance of Professional Design and Commitment of Field Review" prepared by the above listed registered professionals in reviewing the plans, specifications, drawings or supporting documents submitted with this application for a permit.

I confirm that I have relied only on the said Registered Professional for the adequacy of the plans, specifications, drawings and supporting documents submitted with this application.

I understand that I should seek independent legal advice in respect of the responsibilities I am assuming upon the granting of a permit by the Regional District pursuant to this application and in respect of the execution of this acknowledgement.

Every permit shall expire and the right of the owner under the permit shall terminate if the work is not commenced within twelve (12) months or is not completed within twenty four (24) months. The expiry date is calculated from the date of issuance or the date of extension of the permit, whichever is later.

This permit is issued in accordance with the provisions of the Building Bylaw of the Comox Valley Regional District.

The person signing this permit, if not the owner, acknowledges that his/her signature is as agent for the owner and that (s)he is authorized to bind the owner who is deemed to know of and understand the contents of this form.

I certify that I am the owner, or the owner's authorized agent/representative and agree to the above terms.

Where no climatic value is prescribed, the owner shall submit evidence in writing from Environment Canada to establish the climatic values. Contact Environment Canada via email at climate.services@ec.gc.ca or call 416-739-4365.

Where no seismic value is prescribed the owner shall submit evidence in writing from Natural Resources Canada <http://www.nrcan.gc.ca/home> to establish the seismic values.

Coastal Floodplain Assessment

Per Provincial regulations, a Coastal Floodplain Assessment is required to be completed by a professional engineer for proposed structures within 100m of the Strait of Georgia. The professional engineer is also required to complete the **CVRD Floodplain Assurance Checklist**.

Agricultural Land Reserve (ALC)

The ALR is BC's provincial zone that preserves agricultural land for the future. The ALC is the administrative tribunal that adjudicates applications in the ALR while prioritizing and protecting the ALR land base and its use for agriculture. If you plan to develop within the ALR, contact the Agricultural Land Commission. **Visit: alc.gov.bc.ca**

Protected Archaeological Sites in British Columbia

Archaeological sites are protected under the Heritage Conservation Act (HCA) and must not be altered or damaged without a permit issued by the Province of British Columbia's Archaeology Branch. **BC Archaeology Branch 250-953-3334** or visit www2.gov.bc.ca/gov/content/industry/natural-resource-use/archaeology

K'ómoks First Nation (K'ómoks) Cultural Heritage Investigation Permit (CHIP)

K'ómoks First Nation has enacted a **Cultural Heritage Investigation Permit** which is required for development works within a certain proximity of watercourses and all areas having a high archaeological potential. Before starting your project, we strongly encourage you to reach out to K'ómoks directly to see if your proposed works are within these areas and what requirements they may have. For further information please contact the K'ómoks administrative office at 250-339-4545 extension 120.
